Semen Collection Fee is \$325 including GST. Weekend collections may incur surcharges. Freight is charged at cost. This varies from approximately \$30 to over \$400 depending upon the area to which the semen is shipped, courier used and whether same day or Saturday delivery is required. Our preferred carrier is Toll Priority. If travel to a stud is required to perform the collection then this is charged at \$1.50 per km each way. Every effort will be made to share travel costs. An estimate of expected costs can be given in advance if requested.

**Payment MUST be received prior to semen being collected.**

We ask that the request form be faxed or emailed to our clinic no later than 8.00am the day BEFORE the semen is required. Collection cannot be guaranteed after this time. Fax to 07 5447 7480. Email [admin@coorooravet.com.au](mailto:admin@coorooravet.com.au). We will call the primary contact number to confirm the booking. If you do not receive a call please phone 07 54476733.

We cannot take responsibility for semen shipments once they have left our clinic. We use couriers with reliable service but cannot guarantee delivery on time.

**Office use only**
